Number of Clients		Clients
21 Number of clients/patients		
22 Number of new clients/patients		
20 Number of clients/patients leaving agency		
Signed (Chief Executive Officer):		

Note: CMI/ODS Program Type codes that do not commence with a 'C' should not be used to record community (non-admitted patient) service activity. The codes commencing with other characters such as A or S are intended for bed based client groups; for example, code A20 *Acute General Adult* and S90 *Acute Other*.

Where contacts are found with non-community codes, they have been mapped to item 18 *Other – Community Services*.
