

Welcome!

I would like to thank Noel Cleaves; Department of Health, Medical Physicists Ray Budd and Paul Einsidel who gave outstanding presentations at this month's Forum. Attendees walked away with a comprehensive overview of using ionising radiation in human research and associated regulatory requirements.

The Forum series have provided a much needed vehicle to discuss the unique challenges for single, ethical and scientific review of clinical trial research. We want to continue their success, and identify new topics for 2011.

We'd love to hear your suggestions for topics re the 2011 Forum series. Please contact the Coordinating Office for topics or speaker suggestions.

The last of the 2010 Forum series will take place on Friday 29 October. It will cover the establishment of investigator-initiated research. All Investigators are encouraged to attend this important session.

We have now over one hundred multi-site clinical trials registered for ethical review in the streamlined system! Since July 2010, we have had a surge of applications.

We hope you found this e-bulletin informative! We encourage you to forward it to others who may be interested or use it for your own newsletters.

Kind regards,

Suzanne Hasthorpe
Manager, Coordinating Office
for Human Research Ethics

► What's new?

Radiation Forum presentations will be uploaded on the CCHRE website soon - watch this space!

New updates to Online Forms - note the 'pop-up' screen when you log-in

Evaluation of the new streamlined system will commence next month with a stakeholder survey, we would appreciate your participation

► 2010 Research Ethics and Governance Forums

- **Next Forum:** Friday 29 October 2010
- **Presented by:** Dr Paul Monagle
- **Content:** An overview of 'Establishing investigator-initiated research'
- **Register by Friday 15 October by email:** campbell.simpson@health.vic.gov.au

Note: there will be time for networking with colleagues after the presentation.
