

HARP CDM Chronic Disease Management

integrity • compassion • accountability • respect • excellence

Southern Health

Better Health for Our Community

Hospital Admission Risk Program

Projects under H.A.R.P

- Acute Primary Care Liaison (GP)
- Alcohol & Other Drugs Hospital Liaison
- Care in Context – chronic and complex
- Chronic Heart Failure
- Health for Kids in the South East
- Management of Chronic Respiratory Conditions
- Medications Alert

From Project to Program

- an opportunity to look at doing new things in new ways
- A decision was made to look at the Program as a green field site
- Although we now had experience under HARP and key learnings, we don't want to be constrained by this

HARP environment

- Some tremendous outcomes at a client level
- Pockets of terrific collaborative work particularly at an individual client level eg GPs
- How successful had the HARP projects been from a variety of perspectives?
- Fragmentation of projects eg Project Reference Groups for each
- Southern Health's Strategic Goals

Improved collaboration and engagement

- **Planning / decision making**
- **“Systems” development**
- **Consumer engagement**

Where to From Here

- Small working groups over the next 4 weeks
- 2 forums including a broader stakeholder forum end Nov to add value to the work to date
 - Client journeys
