1999–2000 PRS/2 File Structures

All of the PRS/2 File Structures for 2000-2001 are provided in the following pages, for reference.

The file structures show the Transaction Record/s in which PRS/2 data items are to be transmitted, and in which order. They also summarise for each field its length, record position, type and layout.

Conventions used in this document

Additions to the 1999–2000 PRS/2 Files Structures, effective 1 July 2000 are underlined.

Deletions from the 1999–2000 PRS/2 Files Structures, effective 1 July 2000 are ~~struckthrough~~.

Items where changes have been made (including reference file updates), effective 1 July 2000 are in bold.
