

*Section 7:
Control Reports and
Reconciliation*

This section of the *PRS/2 Manual, 11th Edition* will be released to coincide with the implementation of the replacement PRS/2 data feed, developed under the RAPID Project. The revision of this section will include samples of the reports produced by the RAPID PRS/2 interface, and will be presented in the (new) format of this edition of the manual.

In the meantime, please refer to Section D of the *PRS/2 Manual, 9th Edition*. This document includes PRS/2 reports in their current format and a guide to assist with the reconciliation of your PRS/2 reports and your in-house data.
