084 Invalid Accom Type

Effect REJECTION

Problem This E2 Episode Record's Accommodation Type is invalid.
Valid: 1, 2, 3, 4, 6, B, C, M, S

Remedy Correct Accommodation Type and re-transmit the E2.

106 Invalid Sep'n Accommodation

Effect REJECTION

Problem This E2 Episode Record's separation Accommodation Type is blank invalid.
Valid: 1, 2, 3, 4, 6, B, C, M, S

Remedy Correct separation Accommodation Type code and re-transmit the E2.

117 Sep'n Accom Type Not In A Status Seg

Effect REJECTION

Problem This E2 Episode Record's separation Accommodation Type does not match the Accommodation Type in any Status Segment for this E2.
Refer to: Section 3 'Accommodation Type'.

Remedy Check patient's various Accommodation Types.
If appropriate, correct separation Accommodation Type and re-transmit the E2.
If appropriate, correct the Accommodation Type in one of the Status Segments and re-transmit the E2.

240 Newborn Accom But Over 3 Months

Effect REJECTION

Problem In one or more Status Segments of this E2 Episode Record, the Accommodation Type is reported as C *Nursery accommodation: NICU/SCN* or B *Other nursery accommodation or mothers bedside (rooming in)* but the age at admission (as calculated from Date of Birth and Admission Date) is more than 3 months. These Accommodation Type codes are only for babies under 3 months at admission.

Remedy Correct Accommodation Type and/or Date of Birth as appropriate, and re-transmit the E2.

270**Invalid Program Fund Source**

Effect

REJECTION

Problem

This E2 Episode Record contains a Separation Date but the Program Funding Source is invalid.

Valid: 1, 2, 3, 6, 7, 8.

Private hospital only: blank.

Remedy

Correct the Program Funding Source code and re-transmit the E2.

Private hospitals: this field should be blank.

Ensure Edit 334 copes with the revised list of Accommodation Types

334**Hosp Generated DRG Not = PRS/2 DRG**

Effect

Warning

Problem

In this X2 Diagnosis Record, the Hospital Generated DRG reported is not the same as the AR-DRG 4.2 **or** the Vic DRG 4.2 generated by PRS/2.

Grouper input is limited to 20 diagnosis and/or procedure codes. A difference in DRG may occur where the hospital has sequenced one or more codes which are significant to the grouping process outside the first 20 diagnosis and/or procedure codes transmitted to PRS/2.

Remedy

If more codes were allocated to this episode, revise the code sequence to bring all significant codes into the number transmitted, and re-transmit the X2/Y2. The grouper uses up to 20 diagnosis and procedure codes to assign a DRG.

If you are not able to explain the difference in DRG, please contact the HDSS Help Desk.

Deleted edits

097 Same Day Account; Not Same Day Accom

New edits

Newborn But Not Newborn Accom

Effect REJECTION

Problem In this E2 Episode Record, the age at admission, calculated as the difference between the dates of Admission and Birth, is 9 days or less but, in one or more Status Segments, the Accommodation Type is neither of the newborn Accommodation Types: C *Nursery accommodation: NICU/SCN* or B *Other nursery accommodation or mothers bedside (rooming in)*.

Remedy Correct Accommodation Type and/or Date of Birth as appropriate, and re-transmit the E2.

###

NICU/SCN Accom But Unqual Newborn

Effect

REJECTION

Problem

One or more of the Status Segments of this E2 Episode Record contain a combination of Accommodation Type *C Nursery accommodation: NICU/SCN* with Qualification Status *U Unqualified newborn*. If a newborn is in a NICU/SCN, the newborn meets one of the criteria for being qualified for those days.

Refer to: Section 3 'Accommodation Type' and 'Qualification Status'.

Remedy

Correct Accommodation Type and/or Qualification Status as appropriate, and re-transmit the E2.

###

MAPU or SOU Longer Than 48 Hours

Effect

Warning

Problem

In or more Status Segments of this E2 Episode Record, the Accommodation Type is *S Short Stay Observation Unit* or *M Medical Assessment and Planning Unit* but Total Patient Days in that Status Segment is greater than 2 days. These units are intended for short stays.

Refer to: Section 3 'Accommodation Type'.

Remedy

Check the length of time the patient was in the short-stay accommodation.

If the length of time is correct as transmitted, no action is necessary.

If the patient was moved to other accommodation in less than 2 days, record the new accommodation in your system so that a new Status Segment is created, and re-transmit the E2.

###

PFS Primary Health but not Dental

Effect

REJECTION

Problem

In this E2 Episode Record, the Program Funding Source is 2 *Primary Health Output Group 114*. Only Dental Health Services Victoria can use this PFS.

Remedy

Correct Program Funding Source, and re-transmit the E2.

Newborns

If Admission Type = Y *Newborn*, Age at admission must be <10 days.

If Admission Source = Y *Birth in this hospital*, Age at admission must be <10 days.

If Age at admission is <10 days, Accommodation Type must be C *Nursery accommodation: NICU/SCN* or B *Other nursery accommodation or mothers bedside (rooming in)*.

If either of these codes is present, the following are valid combinations:

Criterion for Admission	Qualification Status	Care Type
N <i>Qualified Newborn</i>	N <i>Qualified</i>	4 <i>Other Care (Acute) including Qualified newborn</i>
U <i>Unqualified Newborn</i>	U <i>Unqualified</i>	U <i>Unqualified newborn</i>
N <i>Qualified Newborn</i>	N <i>Qualified</i> and U <i>Unqualified</i>	4 <i>Other Care (Acute) including Qualified newborn</i>
U <i>Unqualified Newborn</i>	U <i>Unqualified</i> and N <i>Qualified</i>	4 <i>Other Care (Acute) including Qualified newborn</i>

Program Funding Source and Care Type

For private hospitals, Program Funding Source is always blank.

For public hospitals, valid combinations:

If Program Funding Source is:	Care Type must be:
1 <i>Public Health Output Group 116</i>	0 <i>Alcohol and Drug</i>
2 <i>Primary Health Output Group 114</i>	4 <i>Acute</i>
3 <i>Youth and Family Services Output Group 118</i>	4 <i>Acute</i>
6 <i>Acute Health Services Program Output Group 111</i>	1 <i>NHT/Non-Acute</i> 2, 6 7 <i>Rehabilitation</i> 3 <i>Family Choice: Awake Attendant Care</i> 4 <i>Acute</i> 9 <i>Geriatric Evaluation and Management</i> U <i>Unqualified newborn</i>
7 <i>Mental Health Services Output Group 115</i>	1 <i>NHT/Non-Acute</i> 5 <i>Approved Mental Health Service</i>
8 <i>Aged Care Program Output Group 113</i>	1 <i>NHT/Non-Acute</i> 5 <i>Approved Mental Health Service</i> 8 <i>Palliative Care</i>
If Care Type is:	Program Funding Source must be:
1 <i>NHT/Non-Acute</i>	6 <i>Acute Health Services Program Output Group 111</i> 7 <i>Mental Health Services Output Group 115</i> 8 <i>Aged Care Program Output Group 113</i>
2, 6, 7 <i>Rehabilitation</i>	6 <i>Acute Health Services Program Output Group 111</i>
3 <i>Family Choice: Awake Attendant Care</i>	6 <i>Acute Health Services Program Output Group 111</i>
4 <i>Acute</i>	2 <i>Primary Health Output Group 114</i> 3 <i>Youth and Family Services Output Group 118</i> 6 <i>Acute Health Services Program Output Group 111</i>
5 <i>Approved Mental Health Service</i>	7 <i>Mental Health Services Output Group 115</i> 8 <i>Aged Care Program Output Group 113</i>
8 <i>Palliative Care</i>	8 <i>Aged Care Program Output Group 113</i>
9 <i>Geriatric Evaluation and Management</i>	6 <i>Acute Health Services Program Output Group 111</i>
0 <i>Alcohol and Drug</i>	1 <i>Public Health Output Group 116</i>
U <i>Unqualified newborn</i>	6 <i>Acute Health Services Program Output Group 111</i>
