| Hospital Activity and WIES Report ..... | 14       |

# ***Introduction***

Hospitals have a number of ways to obtain data from the VAED. These are from:

- Request reports, listed in this section of the Manual, starting page 6-2.
- Standard control reports generated by Mantrack when each file is processed (See Section 5: *Compilation & Transmission*)
- From the DHS Performance Reporting and Analysis Unit. There are several standard reports at: <http://www.dhs.vic.gov.au/ahs/perfrep.htm>

Please direct queries or requests for reports and/or extracts to the Victorian Health Information Reporting System helpdesk by email: [VHIRS.helpdesk@dhs.vic.gov.au](mailto:VHIRS.helpdesk@dhs.vic.gov.au)

# *Request Reports*

Hospitals contributing to PRS/2 can request a range of reports ('Request Reports') from Mantrack Systems. Request Reports are primarily intended to assist in reconciling data and diagnosing problems in data submission. Sites should configure their in-house systems in order to meet their own reporting needs.

Request Reports do not incur a charge and are ordered by including one or more Report Codes in the Header Record. Reports also require or allow a parameter (for example, a date range or a code value).

Up to six different reports may be ordered at any one time. Where one report is needed in differing sequences or formats, only one run of that report can be requested at the one time. The order in which reports are requested is unimportant. Refer to Section 5: *Header Record*.

The reports that can be requested are listed below:

## **Diagnosis Outstanding Report**

Lists all episodes with a separation date within the specified date range, for which no diagnosis record (X2/Y2) is held on PRS/2. This report will assist in identifying missing X2/Y2 records requiring transmission.

## **DRGs for Review**

Lists episodes grouping to a range of nil value/problem DRGs. This report will assist in review of the episodes and, where appropriate, X2/Y2s and/or E2s may be amended and re-transmitted.

## **Census Report**

Lists all episodes where the patient was in hospital on the specified Census Date *according to data held on PRS/2*. This report may be compared with the in-house census to help identify the cause of discrepancies.

## **Sub-Acute Outstanding Report**

Lists all episodes with Care Type 2, 6, 7, K, 8, 9, F or E within the specified date range for which no Sub-acute Record (S2) is held on PRS/2. This report will assist in identifying missing S2 records that they may be transmitted.

## **In the Home Report**

Lists all episodes where the patient had days recorded in Accommodation Type 4 *In the Home (Hospital – HITH) according to data held on PRS/2*. This report may be compared with in-house lists to help identify episodes causing discrepancies.

## **DRG-Based Simple Index Report**

Lists brief details of all episodes with a separation date in the date range, grouped by DRG. This report provides a DRG index for hospitals with limited reporting capabilities.

## **Hospital Activity and WIES Report**

Lists summary data for all separated episodes for the financial year.

---

# Diagnoses Outstanding Report

---

|                              |  |
|------------------------------|--|
| <b>Report Code</b>           | 01   |
| <b>Purpose</b>               | To identify episodes without diagnoses (and therefore without DRGs) remaining in PRS/2 so that outstanding Diagnosis Records (X2/Y2s) can be transmitted. It is possible that the in-house system has diagnoses for <i>all</i> separations but PRS/2 is missing some X2/Y2s (records that have been rejected and not re-transmitted). Order this report if the Discharges and Outstanding Diagnoses part of the Control Report shows there are diagnoses outstanding but you cannot identify which records they are.   |
| <b>Suggestion<br/>Action</b> | Code records (if necessary) and transmit missing X2/Y2 records.  |
| <b>Report Contents</b>       | Episodes with a separation date within the specified date range, for which no X2/Y2 is held in PRS/2 (because none have been sent or, if sent, have been rejected).  |
| <b>Period Covered</b>        | Defined by the report parameters. Can cover any period in the <i>current</i> PRS/2 file (that is, until the file has been closed on 17 September). For example, at 31 August 2005, the report could cover any period from 1 July 2004 to 31 August 2005; at 31 October 2005, the report could cover only 1 July 2005 to 31 October 2005.   |
| <b>Report<br/>Parameters</b> | <p>MMCCYYMMCCYY</p> <p>Requires a low MMCCYY and then a high MMCCYY to indicate the desired range of separation dates.</p> <p>The first MMCCYY is the first day of the first month in the period and the second MMCCYY is the last day of the last month in the period, where the full month has been transmitted. Where the full month has not been transmitted the report will contain data up to the period transmitted.</p> <p>Thus, if the report is required from 01/09/2005 to 31/05/2006 transmit the input parameter: 092005052006</p> <p>Including the report code (01), the full fourteen characters would read:<br/>01092005052006</p> |
| <b>Report<br/>Sequence</b>   | Ascending Patient Identifier; within Patient Identifier, ascending Separation Date.  |
| <b>Fields Reported</b>       | PERIOD OF REPORT [in the title]<br>SEPARATION DATE<br>PATIENT IDENTIFIER (labeled UR Number)<br>SEX<br>DATE OF BIRTH<br>CARE TYPE<br>UNIQUE KEY<br><br>NUMBER OF OUTSTANDING DIAGNOSES FOR PERIOD  |

**Sample 1: Diagnosis Outstanding Report.**

---

## DRGs for Review

---

|                          |  |
|--------------------------|--|
| <b>Report Code</b>       | 02   |
| <b>Purpose</b>           | By listing selected nil value/problem DRGs, the hospital can review diagnosis and procedure coding (accuracy, completeness, sequencing) and accuracy of sex and date of birth.   |
| <b>Suggested Action</b>  | Where amendments can legitimately be made, re-transmit the E2, and/or X2/Y2 records as appropriate, so these episodes can be re-grouped.   |
| <b>Report Contents</b>   | <p>Episodes with a separation date within the reporting range, grouping to nil value/problem DRGs:</p> <ul style="list-style-type: none"><li>• 901Z <i>Extensive O.R. Procedure Unrelated to Principal Diagnosis</i></li><li>• 902Z <i>Non-Extensive O.R. Procedure Unrelated to Principal Diagnosis</i></li><li>• 903Z <i>Prostatic O.R. Procedure Unrelated to Principal Diagnosis</i></li><li>• 960Z <i>Ungroupable</i></li><li>• 961Z <i>Unacceptable Principal Diagnosis</i></li><li>• 963Z <i>Neonatal Diagnosis Not Consistent W Age/Weight</i></li><li>• 964Z <i>Gender Reassignment - Conflict</i></li></ul>                              |
| <b>Period Covered</b>    | Defined by the report parameters. Can cover any period in the <i>current</i> PRS/2 file (that is, until the file has been closed on 17 September). For example, at 31 August 2005, the report could cover any period from 1 July 2004 to 31 August 2005; at 31 October 2005, the report could cover only 1 July 2005 to 31 October 2005.   |
| <b>Report Parameters</b> | <p>MMCCYYMMCCYY</p> <p>Requires a low MMCCYY and then a high MMCCYY to indicate the desired range of separation dates.</p> <p>The first MMCCYY is the first day of the first month in the period and the second MMCCYY is the last day of the last month in the period, where the full month has been transmitted. Where the full month has not been transmitted the report will contain data up to the period transmitted.</p> <p>Thus, if the report is required from 01/09/2005 to 31/05/2006 transmit the input parameter: 092005052006</p> <p>Including the report code (02), the full fourteen characters would read:<br/>02092005052006</p> |
| <b>Report Sequence</b>   | <p>Ascending DRG code; within DRG, the order is governed by:</p> <ul style="list-style-type: none"><li>• First diagnosis code</li><li>• First procedure code</li><li>• Patient Identifier</li><li>• Separation Date</li></ul>  |

**Fields Reported** PERIOD OF REPORT [in the title]  
DRG code [in the title]  
PATIENT IDENTIFIER (labelled UR Number)  
SEPARATION DATE  
VIC-DRG5.0  
SEX  
DATE OF BIRTH  
DIAGNOSES CODES  
PROCEDURE CODES  
UNIQUE KEY  
  
COUNT OF THESE DRGS FOR THE PERIOD [Footnote]

**Sample 2: DRGs for Review.**

Note: For the purpose of the sample, only VIC-DRG 902Z has been included. This report will list all episodes for all the DRGs for review. A new page is started for each DRG. The total is only listed at the end of all of the DRGs.

| Z99(999)—PRS2-DRGREVIEW V1.0<br>PERIOD OF REPORT 01/07/2005 TO 31/07/2005 |                    | PATIENT REPORTING SYSTEM — 2<br>DRGS FOR REVIEW |     |                  |        | RUN ON 03/08/2005 |        |       | PAGE 1<br>FOR THE DEPARTMENT HUMAN SERVICES |         |               |         |         |

# Census Report

---

|                          |  |
|--------------------------|--|
| <b>Report Code</b>       | 03   |
| <b>Purpose</b>           | To help identify the cause of discrepancies found when reconciling PRS/2 with in-house figures.<br>Note that Transmission Control and Reconciliation Reports automatically print a Census Report for the Header Record End Date. This report only needs to be requested if a Census Report is needed for another date. See Section 7: <i>Census Report</i> .   |
| <b>Suggested Action</b>  | The report should be compared with the in-house census for the specified date to identify any patient who is missing in, or incorrectly recorded by, PRS/2. Transmit, as appropriate, deletions or new or updated E2 Episode Record(s) with correct admission and/or separation details.   |
| <b>Report Contents</b>   | Episodes with an admission date less than or equal to the Census Date, and either no separation date or a separation date greater than the Census Date.  |
| <b>Period Covered</b>    | Defined by the report parameters. Can cover any period in the <i>current</i> PRS/2 file (that is, until the file has been closed on 17 September). For example, at 31 August 2005, the report could cover any period from 1 July 2004 to 31 August 2005; at 31 October 2005, the report could cover only 1 July 2005 to 31 October 2005.   |
| <b>Report Parameters</b> | DDMMCCYY<br><br>Requires the date of the census (Census Date).<br><br>Thus, if the report is required for 7 November 2005 transmit the input parameter: 07112005----[last four characters spaces]<br><br>Including the report code (03), the full fourteen characters would read: 0307112005---- [last four characters spaces].  |
| <b>Report Sequence</b>   | Ascending Admission Date; within Admission Date, ascending Patient Identifier.   |
| <b>Fields Reported</b>   | PERIOD OF THE REPORT (that is, Date of the Census) [in the title]<br>CURRENT FILE DATE [in the footnote]<br>UNIQUE KEY<br>PATIENT IDENTIFIER (labelled UR Number)<br>ADMISSION DATE<br>SEX<br>DATE OF BIRTH<br>CARE TYPE<br>ACCOUNT CLASS<br>ACCOUNT CLASS ON SEPARATION<br>SEP'N DATE (Separation Date)<br>NUMBER OF ADMITTED PATIENTS SELECTED FOR THE DATE (PRS/2's tally of patients remaining in at that date.) |

For a copy of the Census Report see Section 7: *Census Report*.

---

# Sub-Acute Outstanding Report

---

|                          |  |
|--------------------------|--|
| <b>Report Code</b>       | 04   |
| <b>Purpose</b>           | To identify episodes with Care Type 2, 6, 7, K, 8, 9, F or E remaining in PRS/2 without a Sub-Acute Record (S2). It is possible that the in-house system contains S2 records for all separations, but PRS/2 is missing some (records that have been rejected and not re-transmitted). Order this report if the Sub-Acute Separations and Outstanding Sub-Acute Records for the Period section of the Control Report shows there are S2 records outstanding but you cannot identify which records they are.   |
| <b>Suggested Action</b>  | Transmit the missing S2 records or, if the Care Type was wrong, amend and re-transmit the E2.  |
| <b>Report Contents</b>   | Episodes with Care Type 2, 6, 7, K, 8, 9, F or E with a separation date within the specified date range, for which no S2 record is held in PRS/2.  |
| <b>Period Covered</b>    | Defined by the report parameters. Can cover any period in the <i>current</i> PRS/2 file (that is, until the file has been closed on 17 September). For example, at 31 August 2005, the report could cover any period from 1 July 2004 to 31 August 2005; at 31 October 2005, the report could cover only 1 July 2005 to 31 October 2005.   |
| <b>Report Parameters</b> | <p>MMCCYYMMCCYY</p> <p>Requires a low MMCCYY and then a high MMCCYY to indicate the desired range of separation dates.</p> <p>The first MMCCYY is the first day of the first month in the period and the second MMCCYY is the last day of the last month in the period, where the full month has been transmitted. Where the full month has not been transmitted the report will contain data up to the period transmitted.</p> <p>Thus, if the report is required from 01/09/2005 to 31/05/2006 transmit the input parameter: 092005052006</p> <p>Including the report code (04), the full fourteen characters would read:<br/>04092005052006</p> |
| <b>Report Sequence</b>   | Ascending Patient Identifier; within Patient Identifier, ascending Separation Date.  |
| <b>Fields Reported</b>   | <p>PERIOD OF REPORT [in the title]<br/>SEPARATION DATE<br/>PATIENT IDENTIFIER (labeled UR Number)<br/>SEX<br/>DATE OF BIRTH<br/>CARE TYPE<br/>UNIQUE KEY</p> <p>NUMBER OF RECORDS WITH CARE TYPE 2, 6, 7, K, 8, 9, F OR E IN THE PERIOD [footnote]<br/>NUMBER OF OUTSTANDING SUB-ACUTE RECORDS FOR THE PERIOD [footnote]<br/>PERCENTAGE OF SUB-ACUTE RECORDS COMPLETED [footnote]</p>  |

**Sample 3: Sub-Acute Outstanding Report.**

# In the Home Report

---

|                          |  |
|--------------------------|--|
| <b>Report Code</b>       | 05   |
| <b>Purpose</b>           | To identify episodes which have a component of care being delivered In the Home (Accommodation Type 4 <i>In the Home (Hospital – HITH)</i> ). Order this report to compare In The Home (ITH) separations and days in the control report with in-house lists, and to identify any records causing discrepancies.  |
| <b>Suggested Action</b>  | Having amended Accommodation Types and re-transmitted the E2s, also investigate the cause of the problem. This will either be poor data flow (the information is not being captured) or flawed software (contact your supplier).   |
| <b>Report Contents</b>   | Episodes with a Separation Date, or an Admission Date without a Separation Date, within the specified date range, for which the Accommodation Type 4 <i>In the Home (Hospital – HITH)</i> is recorded for all or part of the episode.  |
| <b>Period Covered</b>    | Defined by the report parameters. Can cover any period in the <i>current</i> PRS/2 file (that is, until the file has been closed on 17 September). For example, at 31 August 2005, the report could cover any period from 1 July 2004 to 31 August 2005; at 31 October 2005, the report could cover only 1 July 2005 to 31 October 2005.   |
| <b>Report Parameters</b> | <p>MMCCYYMMCCYY</p> <p>Requires a low MMCCYY and then a high MMCCYY to indicate the desired range of separation or admission dates.</p> <p>The first MMCCYY is the first day of the first month in the period and the second MMCCYY is the last day of the last month in the period, where the full month has been transmitted. Where the full month has not been transmitted the report will contain data up to the period transmitted.</p> <p>Thus, if the report is required from: 01/09/2005 to 31/05/2006 transmit the input parameter: 092005052006</p> <p>Including the report code (05), the full fourteen characters would read:<br/>05092005052006</p> |
| <b>Report Sequence</b>   | <p>Ascending Patient Identifier; within Patient Identifier, ascending by Separation Date.</p> <p>Patients remaining are in listed after those with a Separation Date, in ascending Admission Date order.</p> <p>Total episodes containing In The Home days (separations and not separated) are totaled for the period.</p>   |

# Hospital Activity and WIES Report

---

|                          |   |
|--------------------------|---|
| <b>Report Code</b>       | 13  |
| <b>Purpose</b>           | <p>To allow hospital management to reconcile their activity against data held by the Department.</p> <p>Note that Transmission Control and Reconciliation Reports automatically include a Hospital Activity and WIES Report when the Header Record End Date is the last day of the month. This report only needs to be requested if a Hospital Activity and WIES Report is needed in a non end of month transmission, or when the Hospital Activity and WIES Report is needed for the previous financial year (that is, until the file has been closed on 17 September). See Section 7: <i>Hospital Activity and WIES Report</i>.</p> |
| <b>Suggested Actions</b> | Corrective action as suggested by reconciliation results.   |
| <b>Report Contents</b>   | Episodes with a separation date less than or equal to the month requested, and in the financial year of the month requested.  |
| <b>Period Covered</b>    | Defined by the report parameters. Can cover any period in the <i>current</i> PRS/2 file (that is, until the previous financial year is been closed on 17 September). For example, at 31 August 2005, the report could cover any period from 1 July 2004 to 31 August 2005; at 31 October 2005, the report could cover only 1 July 2005 to 31 October 2005.  |
| <b>Report Parameters</b> | <p>DDMMCCYY</p> <p>Requires a valid date in the month of the last month to be reported.</p> <p>Thus, if the report is required for: the full 2004-2005 financial year input parameter: 30062005----[last four characters blank]</p> <p>Including the report code (13), the full fourteen characters would read: 1330062005---- [last four characters blank].</p>  |
| <b>Report Sequence</b>   | See Section 7: <i>Hospital Activity and WIES Report</i> .   |
| <b>Fields Reported</b>   | See Section 7: <i>Hospital Activity and WIES Report</i> .   |
