

Appendix 2: Establishment Identifier Codes and Transfer Source/Destination Codes

These hospital codes are for use as:

- ☞ Hospital Identifier codes to identify the hospital transmitting the data.
- ☞ Transfer Source codes to identify the hospital from which the patient was transferred for emergency care at this hospital.
- ☞ Destination codes to identify the hospital to which the patient is transferred after emergency care at this hospital.

The list is provided in alphabetical order.

Where the hospital transferring or receiving the patient is outside Victoria, the code format is set out in Appendix 2, page 2-1 to 2-13.
