Edit reports	6-5

Edit reports

The following edit reports are provided to the hospital after the transmission has been processed at DHS.

Report	Description
Submission Summary	A table detailing the summary statistics for the submitted file.
An Excel file containing two spreadsheets will contain:	
Edit Summary	A summary of all Edits allocated to this submission file and the count of the allocations per edit.
Edit List	Listing of all records allocated edits. Files included: <ul style="list-style-type: none">• Edit ID Number, as per Section 7 – Editing;• Edit Description, the edit name;• Edit Effect, Rejection, Notifiable or Warning;• Extract ID, identifies the extract in which the record was last included;• Unique Key of the record allocated the edit;• Patient Identifier of the record allocated the edit;• Narrative, a brief summary of the error and field(s) to be investigated;• Arrival Date/Time, of the record allocated the edit.

Any record not listed on the reports outlined above has passed the input edit process and been accepted into the VEMD, no further action is required on these records, unless the DHS or the hospitals determine the data to be inaccurate or erroneous.
