Campus Codes and Transfer Source or Transfer Destination Codes

Victorian Hospitals

For a complete up to date listing of Victorian hospitals and the applicable Campus Codes refer to the HDSS website: <http://www.health.vic.gov.au/hdss/reffiles/index.htm>

The codes contained in the Campus Code Table will be amended as hospitals commence and cease operations. These changes will be documented in an HDSS Bulletin and the relevant tables will be updated on the HDSS website, for immediate incorporation into the Campus Code Tables, unless otherwise stated.

Please contact HDSS (Section 1 – Introduction (Contact Details)) if a campus code cannot be located in the tables.

Guide to Victorian Hospital Campus Codes

The table available on the HDSS website contains the code lists that must be used for reporting the following fields:

- **Campus Code** — identifies the hospital transmitting the data.
- **Transfer Destination** — identifies the hospital to which the patient is transferred after emergency care at this hospital.
- **Transfer Source** — identifies the hospital from which the patient was transferred for emergency care at this hospital.

The code sets appear in six tables:

Mantrack Code	An alphanumeric code used by Mantrack Systems to identify each site.
