

From Place to Place: School, location and access to university education in Victoria

by Dr Bob Birrell, Virginia Rapson, T. Fred Smith, Ian R. Dobson and D.Edwards

Published May 2002 \$30.00 per copy (incl. GST) pages 60

This study reports VCE outcomes for year 12 Victorian schools by school sector and location. It shows that there is a large and growing disparity in ENTERs for students attending government schools in Inner and Eastern Melbourne. This disparity translates into sharp differences in access to university places. Students attending government schools in regional Victoria are also disadvantaged, but on average do better than students attending outer suburban metropolitan government schools.
