

17th Ministerial Rural Health Forum

Wrap up

Jim Hyde
Director
Public Health DHS

Key themes

- Prevention is long-term
- Inequity and health among people living in rural Victoria
- Evidence-informed, evidence-based, evidence building
- Resourcing, coordination and integration
- Plan locally with the capacity to expand globally
- Communication, silos and collaboration

Key messages

- Community involvement and cooperation – the local context - is critical to success
- The need for a life-stage approach is vital
- The importance of equity in our responses

Next steps

- Building and disseminating the evidence
- Access, coordination and integration
- Workforce capacity
- Supporting innovation
- Maximising the current opportunities
