These directions may be referred to as the **Victorian Border Crossing Permit Directions (No 38)**.

Note: a person who is not covered as an international passenger arrival under clause 12 or an international aircrew services worker under clause 9 is not excluded from entering Victoria but is not governed by these directions.

4A Definition of zones

- (1) For the purposes of these directions:
 - (a) a **green zone** means an area in a State or Territory that is not a **red zone** or an **orange zone**; and
 - (b) an **orange zone** means an area in a State or Territory that is determined by the Chief Health Officer to be an 'orange zone' from the **zone commencement time** until the **zone end time** for that area; and
 - (c) a **red zone** means an area in a State or a Territory that is determined by the Chief Health Officer to be a 'red zone' from the zone commencement time until the zone end time for that area.
- (2) A **zone commencement time** in relation to an area, means the time from which the Chief Health Officer has determined that the area is an 'orange

zone' or a 'red zone' (as applicable) as amended from time to time by the Chief Health Officer and detailed on the Department's website available at www.coronavirus.vic.gov.au/victorian-border-crossing-permit.

Note: the zone commencement time is not the date of the announcement by the Chief Health Officer or the Department that an area has been designated as a green zone, orange zone or red zone.

- (3) A **zone end time** in relation to an area, means the time from which the Chief Health Officer has determined that the area ceases to be a 'red zone' or an 'orange zone' (as applicable) as amended from time to time by the Chief Health Officer and detailed on the Department's website available at www.coronavirus.vic.gov.au/victorian-border-crossing-permit.

5 Green zone person

Eligibility

- (1) Subject to the requirements in subclause (2), a person may enter Victoria from any other State or Territory in Australia as a green zone person if the person, at the time they enter Victoria:

- (a) meets the **general eligibility requirements**; and
(b) either:

- (i) has not been in an area that is a red zone or an orange zone in a State or Territory at any time after the relevant zone commencement time in the previous 14 days; or

Note 1: a person that is in a red zone or orange zone some of the time during the 14 day period and in a green zone at other times (including entering Victoria from a green zone) will not be permitted to enter Victoria under this subclause.

Note 2: if a person has been in an area that is a green zone and one day prior to entering Victoria, the Chief Health Officer determines the area is a red zone or orange zone effective from a date 14 days prior to the announcement, the person cannot enter Victoria as a green zone person.

Note 3: if a person leaves an area before the zone commencement time for a red zone or an orange zone and travels to Victoria, that person is deemed to be a green zone person pursuant to subclause (1) (provided they have not been in any other area that is a red zone or orange zone 14 days prior to entry to Victoria).

- (ii) has been in an area that is a red zone or an orange zone in a State or Territory at any time after the relevant zone commencement time in the previous 14 days but only for the purpose of undertaking **hotel quarantine** or **direct and short term transit** through a red zone or orange zone in a State or

Territory to Victoria, and at all times complied with the **direct and short-term transit conditions**.

Note: short term transit means a transit time of less than 24 hours. If a person spends more than 24 hours in any red zone or orange zone, they will not be a green zone person and will instead need to enter Victoria as an orange zone person or red zone person, unless any other exception applies or an exemption has been granted.

Requirements for entry

- (2) A green zone person may enter Victoria from any other State or Territory in Australia if the person:
- (a) is either:
 - (i) 12 years of age or above; or

 - (A) meets all the eligibility requirements in subclause (1); and
 - (B) has provided information in the permit that is true and correct; and
 - (C) will not re-enter Victoria using a green zone permit if they have entered a red zone or an orange zone in a State or Territory at any time after the relevant zone commencement time in the 14 days prior to the attempted re-entry and acknowledges that any green zone permit they have will be revoked if they enter a red or orange zone after receiving the green zone permit and the person will not re-enter Victoria with a revoked green zone permit; and
 - (D) subject to subclause (E), will comply with the **green zone general conditions**; and
 - (E) acknowledges that any zone in a State or Territory may change from time to time and the person may be required to comply with different conditions in these directions (as amended from time to time); and
 - (v) a QR code capable of being scanned by an **authorised officer**, a Victoria Police member or a Protective Services Officer (or other person under such person's direction); and

Note: dependants under the age of 12 do not need to obtain their own permit but must instead be listed on the permit obtained by their parent or guardian that they are travelling with.

- (b) has been in hotel quarantine (including for the purpose of completing the required period of hotel quarantine or for any other purpose, including work) in Victoria or in any other State or Territory in the 14 days prior to entry to Victoria, provides:
 - (i) the name of the facility attended; and
 - (ii) the name of the State or Territory of the facility attended.

Green zone general conditions after entry

- (3) A green zone person who enters Victoria under subclause (1) must, for 14 days after entering Victoria (or, if clause 6(5)(b) or clause 7(5)(b) applies, for the relevant validity period in clause 6(4)(a) or clause 7(4)(a) respectively):
 - (a) comply with all **general post-entry conditions**; and
 - (b) carry and present on request to an authorised officer, Victoria Police Officer or a Protective Services officer (or other person under such person's direction):
 - (i) their valid green zone permit (or, if clause 6(5)(b) applies, a valid **orange zone permit** or if clause 7(5)(b) applies a valid **red zone permit**); and
 - (ii) an **acceptable form of identification**.

Permit validity and revocation

- (4) A green zone permit:
 - (a) is valid for 14 days from the date the person first enters Victoria (unless revoked earlier); and
 - (b) may be used by the person to enter Victoria multiple times during the validity period in subclause (a); and
 - (c) is revoked immediately if the person:
 - (i) enters a red zone or orange zone in a State or Territory after the delivery of the green zone permit; or
 - (ii) a determination is made by the Chief Health Officer prior to the person's first entry to Victoria that results in the person having been in a red zone or orange zone in a State or Territory after the relevant zone commencement time in the 14 days prior to entry into Victoria; or
 - (iii) has been at a **very high risk exposure site** in a State or Territory during the **very high risk period**:
 - (A) prior to delivery of the green zone permit; or

- (B) after delivery of the green zone permit and during the period referred to in subclause (a); or
- (iv) becomes a diagnosed person or a close contact of a diagnosed person (or equivalent) and/or required to self-isolate or self-quarantine in any State or Territory within Australia.

Note: a person who has entered Victoria with a valid green zone permit and remains in Victoria does not need to apply for nor produce a new green zone permit after the initial green zone permit's validity period has expired.

Change to obligations after entry by a green zone person

- (5) If a green zone person has entered Victoria from any other State or Territory in Australia and during the green zone permit validity period in subclause (4)(4)(a), the Chief Health Officer determines that any **relevant green zone** is:
 - (a) a red zone and the person was in the red zone after the relevant zone commencement time, at a time within the 14 days prior to the person's entry to Victoria, then the higher **red zone general conditions** other than the requirement to carry the result of a pre-arrival test under clause 7(3)(a)(ii)(C) and:
 - (i) if the person is either:
 - (A) 12 years of age or above and is **fully vaccinated**; or
 - (B) younger than 12 years of age and is either travelling with parents or guardians who are all fully vaccinated or is unaccompanied,the **red zone (fully vaccinated) conditions** will apply; or
 - (ii) if the person is either:
 - (A) 12 years of age or above and is not fully vaccinated; or
 - (B) younger than 12 years of age and is travelling with a parent or guardian who is not fully vaccinated,the **red zone (not fully vaccinated) conditions** will apply,to that person from the time of notification by the Department for the remainder of the green zone permit validity period in subclause (4)(4)(a); or
 - (b) an orange zone and the person was in the orange zone after the relevant zone commencement time at any time within the 14 days prior to the person's entry to Victoria, then the higher **orange zone general conditions** and:
 - (i) if the person is either:
 - (A) 12 years of age or above and is fully vaccinated; or

- (B) younger than 12 years of age and is either travelling with parents or guardians who are all fully vaccinated or is unaccompanied,

the **orange zone (fully vaccinated) conditions** will apply; or

- (ii) if the person is either:

- (A) 12 years of age or above and is not fully vaccinated; or

- (B) the person is younger than 12 years of age and is travelling with a parent or guardian who is not fully vaccinated,

the **orange zone (not fully vaccinated) conditions** will apply,

to that person from the time of notification by the Department for the remainder of the green zone permit validity period in subclause (4)(4)(a).

Example: a person arrives in Victoria with a green zone permit which is valid for 14 days from their arrival date. Two days after entering Victoria, an area the person was in is determined to be a red zone and the person was in the red zone at a time after the relevant zone commencement time. The Department notifies the person that the green zone permit obligations which applied after entering Victoria have changed to align with the higher, red zone general conditions for the remaining 12 days of the green zone permit's validity period. This includes requirements for the person to self-quarantine for the remaining 12 days and get tested at certain times.

Permit validity and revocation

- (4) An orange zone permit:

- (viii) get tested for SARS-CoV-2:
 - (A) on the thirteenth day after entering Victoria, or
 - (B) if notified by the Department that an area has been rezoned as a red zone in accordance with either clause 5(5)(a) or clause 6(5)(a), on or about the thirteenth day before their quarantine period under subclause (iii) ends; and
- (ix) remain in self-quarantine;
 - (A) unless undertaking essential activities; and
 - (B) until the person has been notified that they have received a negative COVID-19 test result from the COVID-19 test they took in accordance with subclause (viii); and
- (x) if, during the period of self-quarantine, the person refuses or otherwise fails to take a test for SARS-CoV-2 in accordance with subclause (viii), the 14 day period of self-quarantine is extended for an additional period being the earlier of:
 - (A) an additional 14 days; or

- (B) until the person gets tested for SARS-CoV-2 and receives a negative test result; and

Note: any test undertaken in accordance with subclause (vi) will not satisfy the requirement in subclause (viii). Note: a red zone person who is not fully vaccinated entering Victoria will be required to test for SARS-CoV-2 on or around day 13 of their self-quarantine (or the day before the end of self-quarantine), as testing at this time is likely to detect the presence of SARS-CoV-2, even if a person has not yet developed symptoms. As a person may be infectious for up to 14 days after the 14 day incubation period, if this test does not occur, an additional 14 days of quarantine is required to prevent a person who develops SARS-CoV-2 towards the end of the 14 day incubation period, even if not symptomatic, transmitting SARS-CoV-2 to the broader community.

- (xi) if, during the period of self-quarantine:
 - (A) the person is tested for SARS-CoV-2; and
 - (B) subject to subclause (C), the period for which the person is required to self-quarantine under subclause (iii) expires during the period in which the person is awaiting the result of that test, the period of self-quarantine is extended until the person receives a negative SARS-CoV-2 test result; and
 - (C) if the person receives a negative SARS-CoV-2 test result and:
 - 1. the period for which the person is required to self-quarantine under subclause (iii) has not expired, the person must continue to self-quarantine under subclause (c) for the remainder of that period; or
 - 2. the period for which the person is required to self-quarantine under subclause (iii) (as extended under either or both of subclauses (ix) or (x)) has expired, the person may cease self-quarantining immediately.

Permit validity and revocation

- (4) A red zone permit:
 - (a) is valid for 14 days from the date the person first enters Victoria (unless revoked earlier); and
 - (b) may only be used once by a person to enter Victoria; and
 - (c) is revoked immediately if the person is outside Victoria and:
 - (i) has been at a very high risk exposure site in a State or Territory during the very high risk period:
 - (A) prior to delivery of the red zone permit; or

- (B) after delivery of the red zone permit in subclause (a); or
- (ii) the person is or becomes a diagnosed person or a close contact of a diagnosed person (or equivalent) in any State or Territory and/or required to self-isolate or self-quarantine (or equivalent) in any State or Territory:
 - (A) prior to delivery of the red zone permit; or
 - (B) after delivery of the red zone permit.

Note: a red zone person who has entered Victoria with a valid red zone permit and remains in Victoria does not need to apply for nor produce a new red zone permit after the initial red zone permit's validity period has expired.

Change to obligations after entry as a red zone person

- (5) If a red zone person has entered Victoria and during the red zone permit validity period in subclause (4)(a), the Chief Health Officer determines that:
- (a) all **relevant red zones** are orange zones (or a combination of orange zones and green zones) and the person was in only those, or other orange zones or green zones after the relevant zone commencement time, at a time within the 14 days prior to the person's entry to Victoria, then:
 - (i) if the person is fully vaccinated (or under the age of 12 years), the orange zone (fully vaccinated) conditions will apply to the person; or
 - (ii) if the person is not fully vaccinated and 12 years or over, the orange zone (not fully vaccinated) conditions will apply,

in addition to the lesser, orange zone general conditions will apply to the person from the time of notification by the Department for the remainder of the 14 day period; or
 - (b) all relevant red zones are green zones and the person was in only those, or other, green zones after the relevant zone commencement time, at a time within the 14 days prior to the person's entry to Victoria, then the lesser green zone general conditions will apply to the person from the time of notification by the Department for the remainder of the 14 day period.

Example: a person arrives in Victoria with a red zone permit which is valid for 14 days from their arrival date. Two days after entering Victoria, all areas that the person was in are determined to be orange zones (or a combination of orange and green zones) and the person was in all of those orange zones or green zones at a time after the relevant zone commencement time. The Department notifies the person that the red zone general conditions which applied after entering Victoria have changed to align with the lesser, orange zone general conditions for the remaining 12 days of the red zone permit's validity period. This includes

requirements for the person to continue self-quarantining until they are tested for SARS-CoV-2 and receive a negative SARS-CoV-2 test result. If the person is a red zone person who is not fully vaccinated and has already been tested for SARS-CoV-2 on day 13 of their self-quarantine period and has received a negative SARS-CoV-2 test result, the person may cease self-quarantining immediately.
