

# HACC-PYP Unit Prices 2021-22

Effective 1 July 2021

**OFFICIAL**

## Home and Community Care Program for Younger People (HACC-PYP) Unit prices and Non Key Performance Outcome Measure Prices (Non KPOM)

HACC-PYP is a price by volume program. This means that most HACC-PYP activities have a price that is used to determine targets. There are 2 types of targets in HACC-PYP

1. A unit priced target where the price is fixed and all agencies must meet target in order to meet performance expectations
2. A Non KPOM price where the price is an indicator of the amount of service the departments expect for the funding. For these activities; primarily HACC-PYP flexible service response and HACC-PYP service system resourcing, not meeting target generates a discussion about performance.
