

Statement of Priorities

2024-25 Agreement between the Secretary, Department of Health and
Gippsland Southern Health Service

OFFICIAL

Department
of Health

OFFICIAL

The department proudly acknowledges Victoria's Aboriginal communities and their rich culture and pays respect to their Elders, past and present.

We acknowledge Aboriginal people as Australia's first peoples and as the Traditional Owners and custodians of the land and water on which we rely.

We recognise and value the ongoing contribution of Aboriginal people and communities to Victorian life and how this enriches us.

We embrace the spirit of reconciliation, working towards the equality of outcomes and ensuring an equal voice.

Background

Statement of Priorities are key accountability agreements between the Victorian State Government and Victorian publicly funded health, mental health, and ambulance services. The content and process for preparing and agreeing on the annual Statement of Priorities are consistent with sections 40G, 65ZFA, 65ZFB, and section 26 of the *Health Services Act 1988*.

Statement of Priorities are consistent with the health services' strategic plans and aligned to government policy directions and priorities. For 2024-25, the Statement of Priorities continues to refer to the *Department of Health Strategic Plan 2023-27* (Strategic Plan), which is refreshed on an annual basis. The annual agreements support the delivery of, or substantial progress towards, the key shared objectives of quality and safety, good governance and leadership, access and timeliness, and financial sustainability.

Statement of Priorities consists of four main parts:

- Part A provides the strategic priorities for the health service to contribute to in the year ahead.
- Part B lists the performance priorities and agreed targets.
- Part C lists funding and associated activity.
- Part D forms the service agreement between each health service and the state of Victoria for the purposes of the National Health Reform Agreement.

Performance expectations and mechanisms used by the Department of Health (the department) to monitor and manage performance are described in the *Victorian Health Service Performance Monitoring Framework 2024-25* (The Framework).

High standards of governance, transparency and accountability are essential. In this context, the Victorian Government commits to publishing the Statements of Priorities each year and presenting data on the performance of our health system in the public domain.

Ministerial Priorities

As noted above, Statements of Priorities are aligned to government policy directions and priorities. In 2024-25, these include the following Ministerial priorities:

For the **overall health system**:

1. A reformed health system, shifting from competition to collaboration between health services, and with strengthened, formalised partnerships between health services and community and primary care services to ensure patients receive the right care closer to home.
2. A growing, skilled, and engaged workforce that is supported to develop professionally. This is achieved through an increased supply of critical roles, world leading employee experience, diverse workforce skills and experience, and a strategic focus on future roles, capabilities, professional development, and improving and promoting workplace gender equality, including meeting Health Service obligations under the *Gender Equality Act 2020*.
3. A health system that is grounded in respect and safety, particularly cultural safety, and awareness, achieved through mandatory cultural safety training, anti-racism plans and actions, and employment plans that drive greater representation of First Nations people across all levels of a health service.
4. Improved health equity through a focus on:
 - a. Aboriginal health and wellbeing, achieved through identifying and closing gaps in access to care, and improved discharge planning for Aboriginal patients
 - b. family-centred health models for priority populations
5. A focus on women's health, including improved access to abortion care and public fertility services, and reduced gender health disparities supported through the rollout of comprehensive women's health clinics.
6. A continued focus on innovating and improving the quality and safety of care, including through strengthening clinical governance systems under the Victorian Clinical Governance Framework, and improving access to timely care by implementing strategies that improve whole of system patient flow.
7. A financially sustainable health system reflected in balanced health service budgets.

For the **mental health system**:

8. An improved mental health system, through:
 - a. supporting people to stay well in their communities through prevention and promotion
 - b. growing strong, safe, and supported mental health workforces through the implementation of the mental health workforce strategy
 - c. supporting a system that embeds lived experience at every level
 - d. delivering connected, new, and better community and bed-based services
 - e. supporting better consumer outcomes through performance improvement

- f. elevating consumer rights and supporting cultural change in line with the principles of the Mental Health and Wellbeing Act 2022
- g. providing culturally safe services that deliver social and emotional wellbeing models for Aboriginal and Torres Strait Islander people.

Supporting services for older Victorians:

- 9. A reformed health system that responds to the needs of older people to receive the right care in the right place through:
 - a. initiatives that reduce avoidable hospital presentations and length of stay for older people in hospital
 - b. availability of public sector residential aged care.
- 10. A strengthened approach to the delivery of high quality and safe aged care services through:
 - a. continued implementation of national aged care reforms arising from the Royal Commission into Aged Care Quality and Safety
 - b. system stewardship and oversight of public aged care service delivery.

These Ministerial priorities are reflected in 2024-25 Statements of Priorities and the Department of Health Strategic Plan 2023-27 (Strategic Plan).

Part A: Department of Health Strategic Plan

The Statement of Priorities are aligned with the Strategic Plan¹.

Gippsland Southern Health Service will contribute to the Strategic Plan 2023-27 by agreeing to the following priorities:

System Priorities

Excellence in clinical governance

We aim for the best patient experience and care outcomes by assuring safe practice, leadership of safety, an engaged and capable workforce, and continuing to improve and innovate care.

Goals

- MA1 Develop strong and effective relationships with consumer and clinical partners to drive service improvements as per the Partnering in healthcare framework.
- MA2 Strengthen all clinical governance systems, as per the Victorian Clinical Governance Framework, to ensure safe, high-quality care, with a specific focus on building and maintaining a strong safety culture, identifying, reporting, and learning from adverse events, and early, accurate recognition and management of clinical risk to and deterioration of all patients.
- MA4 Identify and develop clinical service models where face to face consultations can be substituted by virtual care wherever possible (using telehealth, remote monitoring), while ensuring strong clinical governance, safety surveillance and patient choice.

Health service deliverables:

- MA1 Ongoing development of CAC committee and embedding of Care opinion feedback platform to enhance the community voice and relationships with consumers.
- MA1 Further strengthen effective relationships with consumers by providing opportunities for consumer representatives to be part of some formal internal committees.
- MA2 Strengthen clinical governance systems that support safe care, including clear recognition, escalation, and addressing clinical risk and preventable harm via the GSHS Best care strategy.
- MA2 Improve paediatric patient outcomes by implementing the "ViCTOR track and trigger" observation chart and escalation system whenever children have observations taken.
- MA4 Embed the Department of Health 'Virtual Care Operational Framework' and formulate governance and procedures to align with those outlined within the Framework.

Operate within budget

Ensure prudent and responsible use of available resources to achieve optimum outcomes.

Goal

- MB1 Develop and implement a health service Budget Action Plan (BAP) in partnership with the Department to manage cost growth effectively to ensure the efficient operation of the health service.

Health service deliverables:

- MB1 Deliver on the key initiatives as outlined in the Budget Action Plan.
- MB1 Utilise data analytics and performance metrics to identify areas of inefficiency and waste and make evidence-based decisions to improve financial sustainability and operational performance.

Improving equitable access to healthcare and wellbeing

Ensure that Aboriginal people have access to a health, wellbeing and care system that is holistic, culturally safe, accessible, and empowering.

Ensure that communities in rural and regional areas have equitable health outcomes irrespective of locality.

Goals

- MC1 Address service access issues and equity of health outcomes for priority communities, including LGBTIQ+ communities, multicultural communities, people with disability and rural and regional people, including more support for primary, community, home-based and virtual care, and addiction services.
- MC2, MC3 Enhance the provision of appropriate and culturally safe services, programs, and clinical trials for and as determined by Aboriginal people, embedding the principles of self-determination.
- MC4 Expand the delivery of high-quality cultural safety training for all staff to align with the Aboriginal and Torres Strait Islander cultural safety framework. This training should be delivered by independent, expert, community-controlled organisations or a Kinaway or Supply Nation certified Aboriginal business.

Health service deliverables:

- MC1 Partner with Aboriginal community-controlled health organisations, respected Aboriginal leaders and Elders, and Aboriginal communities to deliver healthcare improvements.
- MC1 Plans to identify and prioritise the health, wellbeing and service needs of the Aboriginal catchment population and service users – including improved patient identification, discharge planning and outpatient care.
- MC3 Promote a culturally safe welcoming environment with Aboriginal cultural symbols and spaces demonstrating, recognising, celebrating and respecting Aboriginal communities and culture.
- MC3 CEO and executive leadership to drive and be accountable for outcomes in cultural safety and Aboriginal self-determination.

- MC4 Implement mandatory cultural safety training and assessment for all staff in alignment with the Aboriginal and Torres Strait Islander cultural safety framework, and developed and/or delivered by independent, expert, and community-controlled organisations, Kinaway or Supply Nation certified Aboriginal businesses.

A stronger workforce

There is an increased supply of critical roles that support safe, high-quality care. Victoria is a world leader in employee experience, with a focus on future roles, capabilities, and professional development. The workforce is regenerative and sustainable, bringing a diversity of skills and experiences that reflect the people and communities it serves. As a result of a stronger workforce, Victorians receive the right care at the right time, closer to home.

Goals

- MD1 Improve employee experience across four initial focus areas to assure safe, high-quality care: leadership, health and safety, flexibility, and career development and agility.
- MD2 Explore new and contemporary models of care and practice, including future roles and capabilities.

Health service deliverables:

- MD1 Deliver programs to improve employee experience across four initial focus areas: leadership, safety and wellbeing, flexibility, and career development and agility.
- MD1 Implement and/or evaluate new/expanded programs that uplift workforce flexibility such as a flexibility policy for work arrangements.
- MD2 Pilot, implement or evaluate new and contemporary models of care and practice, including future roles and building capability for multidisciplinary practice e.g. maternity care model, medical workforce model and Korumburra strategy.

Moving from competition to collaboration

Share knowledge, information and resources with partner health and wellbeing services and care providers. This will allow patients to experience one health, wellbeing and care system through connected digital health information, evidence, and data flows, enabled by advanced interoperable platforms.

Goals

- ME1 Partner with other organisations (e.g., community health, ACCHOs, PHNs, General Practice, and private health) to drive further collaboration and build a more integrated system.
- ME2 Engage in integrated planning and service design approaches while assuring consistent and strong clinical governance with partners to connect the system to deliver seamless and sustainable care pathways and build sector collaboration.

Health service deliverables:

- ME1 Engage local ACCHO groups in the identification and delivery of initiatives that improve Aboriginal cultural safety.

- ME2 Undertake joint clinical service plans with an agreed approach to coordinating the delivery of health services at a regional level as opposed to individual health service planning e.g. Residential In Reach (RIR) program.
- ME2 Reviewing specialist workforce requirements at a regional or sub-regional level and developing a shared workforce model, including coordinating efforts to attract and retain workforce at a regional or sub-regional level.

Part B: Performance Priorities

The *Victorian Health Services Performance Monitoring Framework* (PMF) outlines the Government's approach to overseeing the performance of Victorian health services. Further information is available at the [Funding, Performance and Accountability webpage](https://www.health.vic.gov.au/funding-performance-accountability/performance-monitoring-framework) <<https://www.health.vic.gov.au/funding-performance-accountability/performance-monitoring-framework>>.

As the PMF states, while the Statement of Priorities sets out the annual high level strategic performance priorities, health services remain comprehensively accountable for quality and safety, good governance and leadership, access and timeliness, and financial sustainability, as defined in relevant legislation. This means that performance against these broader accountabilities will continue to be monitored based on a comprehensive set of quantitative metrics and qualitative intelligence and managed and raised with health services as needed.

High quality and safe care:

Key Performance Measure	Target
Infection prevention and control	
Percentage of healthcare workers immunised for influenza	94%
Adverse events	
Percentage of reported sentinel events for which a root cause analysis (RCA) report was submitted within 30 business days from notification of the event	All RCA reports submitted within 30 business days
Aged care	
Public sector residential aged care services overall star rating	Minimum rating of 3 stars
Patient experience	
Percentage of patients who reported positive experiences of their hospital stay	95%
Aboriginal Health	
The gap between the number of Aboriginal patients who discharged against medical advice ² compared to non-Aboriginal patients	0%

Strong governance, leadership, and culture

Key Performance Measure	Target
Organisational culture	
People matter survey – Percentage of staff with an overall positive response to safety culture survey questions.	80%

² Further work will be undertaken on leave event measures terminology that better captures patient experience and Aboriginal community's holistic understanding of health and wellbeing.

Timely access to care

Key Performance Measure	Target
Specialist Clinics	
Percentage of patients referred by a GP or external specialist who attended a first appointment within the recommended timeframe ³	95%

Effective financial management

Key Performance Measure	Target
Operating result (\$M)	0.00
Adjusted current asset ratio	0.7 or 3% improvement from health service base target
Variance between forecast and actual Net result from transactions (NRFT) for the current financial year ending 30 June	5% movement in forecast revenue and expenditure forecasts

³ 30 days for urgent patients, 365 days for routine patients

Part C: Activity and Funding

The performance and financial framework within which state government-funded organisations operate is described in *The Policy and Funding Guidelines – Funding Rules*. The Funding Rules detail funding and pricing arrangements and provide modelled budgets and targets for a range of programs. The [Policy and Funding Guidelines](https://www.health.vic.gov.au/policy-and-funding-guidelines-for-health-services) webpage <<https://www.health.vic.gov.au/policy-and-funding-guidelines-for-health-services>>.

Period 1 July 2024 – 30 June 2025

Table 1 Gippsland Southern Health Service funding summary for 1 July 2024 – 30 June 2025

Funding Type	Activity	Budget (\$'000)
Consolidated Activity Funding		
Acute admitted, subacute admitted, emergency services, non-admitted NWAU	3,708	25,592
Acute Admitted		
Acute admitted DVA	14	91
Other admitted		(657)
Subacute/Non-Acute, Admitted & Non-admitted		
Palliative care non-admitted		683
Subacute - DVA	22	146
Aged Care		
Residential aged care	31,097	1,975
HACC	5,096	651
Aged care other		45
Mental Health and Drug Services		
Drug Services	238	234
Primary Health		
Community health / primary care programs	3,476	424
Community health other		14
Other		
Health workforce		118
Other specified funding		1,385
Total Funding		30,701

Please note:

- Base level funding, related services and activity levels outlined within the Policy and Funding Guidelines are subject to change throughout the year. Further information about

the department's approach to funding and price setting for specific clinical activities and funding policy changes is also available from [Health Services](https://www.health.vic.gov.au/policy-and-funding-guidelines-for-health-services)
<<https://www.health.vic.gov.au/policy-and-funding-guidelines-for-health-services>>

- Each funding type row (e.g., “emergency services”) comprises a mix of activity-based funding and block grants. Funding depends on the service profile. For further details, refer to the Policy and funding guidelines for health services (see the above point for the link).
- In situations where a change is required to Part C, changes to the agreement will be actioned through an exchange of letters between the department and the health service’s Chief Executive Officer.

Part D: Commonwealth Funding Contribution

Commonwealth funding contribution is provided by the 2024-25 Commonwealth budget, which is based on estimates. This is updated throughout the year based on updated activity levels by the Administrator of the National Health Funding Pool.

Commonwealth funding is based on actual activity; there may be adjustments to funding throughout the year as a result of reconciliations and other factors.

Table 2 Commonwealth contribution for the period 1 July 2024 – 30 June 2025

Funding Type	Number of services (NWAU)	Funding allocation (\$)
Victorian Efficient Price		\$6,883 per NWAU
Activity based funding allocation (National Health Reform Agreement in-scope services)		
Acute admitted	2,908	22,085,661
Sub-acute	151	1,723,158
Emergency department	322	2,213,229
Non-admitted	327	2,251,980
Total activity based funding allocation	3,708	28,274,027
Block funding allocation		
Teaching, training, and research		181,545
Small rural hospitals		53,105
Other mental health		235,293
Total block funding allocation		469,943
Total NHRA in-scope funding allocation		28,743,971

Please note:

- In situations where a change is required to Part D, changes to the agreement will be actioned through an exchange of letters between the department and the Health Service Chief Executive Officer. Letters will be made publicly available.
- Numbers may differ from systems due to rounding.
- As funding paid through the pool includes price and non-price grants, the funding allocated is not wholly the product of price multiplied by the activity.

Accountability and funding requirements

The health service must comply with:

- All laws applicable to it.
- The *National Health Reform Agreement*.
- All applicable requirements, policies, terms, or conditions of funding specified or referred to in the Department of Health *Policy and Funding Guidelines 2024-25*.
- Policies, procedures, and appropriate internal controls to ensure the accurate and timely submission of data to the Department of Health.
- All applicable policies and guidelines issued by the Department of Health from time to time and notified to the health service.
- Where applicable, all terms and conditions specified in an agreement between the health service and the Department of Health relating to the provision of health services are in force at any time during the 2024-25 financial year.
- Relevant standards for programs that have been adopted, e.g., the International Organisation for Standardisation standards and AS/NZS 4801:2001, Occupational Health and Safety Management Systems, or an equivalent standard.
- Where applicable, this includes the National Safety and Quality Health Service Standards ('NSQHS standards') as accredited through the Australian Health Service Safety and Quality Accreditation Scheme.
- Specific to DHSV: in relation to the School Dental Project Plan, as agreed and specified by both parties, including meeting the requirements outlined in the School Licence Agreement.
- Any other relevant, applicable statutory, regulatory or accountability rules, policies, plans, procedures, or publications.

Signing Page

The Secretary, Department of Health and the health service board chairperson agree that funding will be provided to enable the health service to meet its service obligations and performance requirements as outlined in this Statement of Priorities.
